

► Features and Benefits

Polycom® HDX 4000™

Audio

Polycom 22 kHz StereoSurround™	<ul style="list-style-type: none">• 2 channels of 22 kHz crystal clear audio• Superb clarity to hear the subtleties of every word• Easily decipher multiple, simultaneous conversations• Distinguish which side of the room people are talking from, just like in a real meeting
Audio Error Concealment	<ul style="list-style-type: none">• Eliminates audio drop-outs on noisy networks• Smooth, consistent verbal communications without interruptions• Corrects audio from any system seamlessly• Activates automatically, only when needed
Flexibility of headset	<ul style="list-style-type: none">• Use headset with microphone for complete privacy• 3.5mm jack built-in for headset or headphone
Built-in stereo speakers	<ul style="list-style-type: none">• Powerful sound from built-in speakers offering rich fidelity from 100 Hz to 22 kHz
Integrated desk phone	<ul style="list-style-type: none">• Your video device can be used as fully-functional speakerphone• VoIP or analog high quality speakerphone

Video

True High Definition Video	<ul style="list-style-type: none">• Natural high high definition during video call• Reduce the technology barriers by seeing people and content in HD resolution• 720p30 (832 kbps- 4 Mbps)• 480p (256 – 768 kbps)
Embedded HD camera	<ul style="list-style-type: none">• Camera is positioned in bezel of monitor for improved visual acuity• Electronic pan-tilt-zoom allows for flexibility• 16:9 aspect ratio gives a natural viewing angle• 65° field of view allows for a team view in front of the camera• Privacy shutter
Polycom Extreme HD LCD	<ul style="list-style-type: none">• 20.1" high definition LCD for increased desktop landscape• Multiple resolutions supported, 1600x1200, 1680x1050, 1600x1000, 1400x1050, 1344x1008, 1344x840, 1280x1024, 1280x960, 1280x800, 1280x720, 1024x768, 800x600• High resolution for split screen video and graphics
Lost Packet Recover (LPR)	<ul style="list-style-type: none">• Communications remain intact even on disruptive networks• Smooth, continuous video without interruptions• Maintain active face-to-face contact• Accomplish meeting objectives without worrying about the video integrity of public or private networks• Activates automatically, only when needed
Dual Monitor Emulation	<ul style="list-style-type: none">• Most efficient use of a single LCD display• View near and far video windows at the same time• Alternate layout views supporting near end, far end and content in native aspect ratio and resolutions

Content Sharing

People+Content™, H.239	<ul style="list-style-type: none">• People and Content both shared in High Definition• Polycom People+Content or standards based H.239 ensures interoperability in the industry• Dual images allows the far end to see the presentation and the speaker at the same time• One touch sharing directly from keypad• People+Content Receive (included)• People+Content Send (optional)
People On Content™	<ul style="list-style-type: none">• Optional feature allows for users to become part of their presentations• Using chroma key technology, users can place themselves in front of the PC video input source.• Perfect for distance education and training• Retain attention, increase productivity
Adjustable Bandwidth for Content	<ul style="list-style-type: none">• Flexibility to choose the amount of bandwidth to dedicate to Content or People based upon what is being shown• Options include 90% Content/ 10% People; 50% Content/ 50% People; 10% Content/ 90% People• System will automatically adjust bandwidth allocation when sharing content based upon content being shown• Very powerful for users who share a wide range of content during a video call• User adjustable setting can be accessed both during a call and outside of a call

User Interface

Non-disruptive Desktop	<ul style="list-style-type: none">• Video UI “floats” on top of PC screen when activated• View desktop applications during a video call
Multiple resolutions supported	<ul style="list-style-type: none">• 12 input video resolutions supported for local display

Platform Versatility

Internal Multipoint Software	<ul style="list-style-type: none">• Optional upgrade easily done with a software key• Conduct meetings beyond just point-to-point• Increase productivity by including key people on the call• Adding sites during a call can lead to quick decision making• Supports up to 4 video calls in a single conference
Secure FTP, Telnet and Web	<ul style="list-style-type: none">• Polycom video systems are the most secure video conferencing solutions in the industry• All access to the HDX system can be secured including accessing the HDX system via web-browser as well as secure telnet and ftp access via SSH for secure system administration and application connectivity
Advanced Encryption Standard (AES)	<ul style="list-style-type: none">• Communications are confidential and secure• Authentication by the National Institutes of Standards means it's credible• Built-in, no extra hardware required
H.460 NAT/Firewall Traversal	<ul style="list-style-type: none">• Standards compliance for traversing NATs and Firewalls• Session border controller (V2IU) is only needed at the central location and all VSX systems with H.460 can communicate through the single V2IU• Uses H.460.18 for signaling traversal and call establishment and H.460.19 for media traversal

IP (H.323, SIP or SCCP), ISDN or Serial Connectivity

- IP is standard and you choose the H.320 interface best for your application
- Choose the right option for your specific network connection
- Supports UPnP and NAT for automatic setup of conferences conducted through firewalls
- Wide range of IP QoS services to insure call quality and integrity
- Optional H.320 interfaces include Quad BRI, PRI, V.35, RS-449 and RS-530

Multiple Use RS-232 Port

- RS-232 port
 - Integrate easily with control panels.
-

Interoperability

Part of Polycom's Unified Collaborative Communications

- Remote management through Global Management System™
- RMX Click & View™ offers a variety of layout templates for multipoint call right from the system's handheld remote
- Expand the audience over audio and video with an RMX™ bridge
- Extended conferencing with Polycom PathNavigator™
- Schedule, invite participants and manage conferences easily with Polycom Conference Suite
- Video recording, streaming and archiving with the Polycom RSS 2000™.
- Use the Polycom SE200 for management, scheduling and gatekeeping

Standards-based

- Solid, reliable platform
- Qualified by independent test labs
- Interoperates with other vendor's systems
- Easy to install even in a multi-vendor environment

Baseline Mode

- Set your system to baseline mode, H.261 and G.711, for maximum interoperability with legacy video conferencing systems
- Accessible via web, FTP or on-screen UI for easy access by the network administrator
- Can be turned on and off as needed

Technical Documentation

Award winning documentation

- Documentation set includes information about setting up, maintaining, and using the system
- Available at www.polycom.com/videodocumentation
- Searchable PDFs with colorful illustrations
- Administrators Guide, User's Guide, and Quick Tips available in most supported languages

Setup Sheets

- Easy-to-follow graphical instructions for setting up the system and peripherals
- Illustrations show both minimal and optional system configurations
- Shipped with the system for easy access

Administrator's Guide

- Comprehensive information for configuring system, including an explanation of each administrator setting
- Descriptions of system features and capabilities
- Back panel diagrams of all systems with explanations of each connector
- Instructions for using the web interface

User Documents

- Quick Tips one-page document provides quick and easy reference for video conferencing tasks
- User's Guide covers everything you need to know about using the system in a video conference
- Customizable User's Guide allows you to include your help desk information specific to your environment
